Firm Roots

Our law firm was founded in 1985 by an attorney who had a prior career working for a big railroad company. He suffered an on-the-job injury that prematurely ended his railroad career. This prompted him to attend law school and focus on representing people who were seriously injured in accidents.

As you can see, our firm not only sympathizes with you but work tirelessly for our injured clients, helping them put their life back on track after a serious accident.

Cases We Handle Day In and Day Out

We have represented thousands of clients in a variety of cases, including:

- Car accidents
- Accidents between a car and a big rig or 18-wheeler
- Railroad worker injuries and disease claims (e.g., asbestos-related mesothelioma)
- Motorcycle wrecks
- Traumatic brain injuries
- Wrongful death
- Boat accidents
- Bus, Public transit accidents
- Electric shock
- Injuries resulting in amputated thumb, fingers, arm, or legs
- Slip, trip, and falls
- Medical malpractice
